JANUARY

12 PIECES ANCHOR WINCHES ARE DELIVERED

Twelve pieces anchor winches are delivered in January 2016 for the harbour construction project by GAP Insaat in Turkmenistan.

After being tested by Turkish Lloyd, 12 Pieces DTC 7000E Anchor winches (Electric motor driven winches with 7 ton pull), 80kN SWL Warping Rollers and 160kN SWL Fairleads are delivered to the customer in January 2016. Equipments will be used on the barges which will work at the construction of a new harbour in Caspian Sea, Turkmenistan.
